# Due diligence checklist

## What you need to know before buying a residential property

Before you buy a home, you should be aware of a range of issues that may affect that property and impose restrictions or obligations on you, if you buy it. This checklist aims to help you identify whether any of these issues will affect you. The questions are a starting point only and you may need to seek professional advice to answer some of them. You can find links to organisations and web pages that can help you learn more, by visiting the [Due diligence checklist page on the Consumer Affairs Victoria website](http://consumer.vic.gov.au/duediligencechecklist) (consumer.vic.gov.au/duediligencechecklist).

## Urban living

### Moving to the inner city?

High density areas are attractive for their entertainment and service areas, but these activities create increased traffic as well as noise and odours from businesses and people. Familiarising yourself with the character of the area will give you a balanced understanding of what to expect.

### Is the property subject to an owners corporation?

If the property is part of a subdivision with common property such as driveways or grounds, it may be subject to an owners corporation. You may be required to pay fees and follow rules that restrict what you can do on your property, such as a ban on pet ownership.

## Growth areas

### Are you moving to a growth area?

You should investigate whether you will be required to pay a growth areas infrastructure contribution.

## Flood and fire risk

### Does this property experience flooding or bushfire?

Properties are sometimes subject to the risk of fire and flooding due to their location. You should properly investigate these risks and consider their implications for land management, buildings and insurance premiums.

## Rural properties

### Moving to the country?

If you are looking at property in a rural zone, consider:

- Is the surrounding land use compatible with your lifestyle expectations? Farming can create noise or odour that may be at odds with your expectations of a rural lifestyle.
- Are you considering removing native vegetation? There are regulations which affect your ability to remove native vegetation on private property.
- Do you understand your obligations to manage weeds and pest animals?

### Can you build new dwellings?

Does the property adjoin crown land, have a water frontage, contain a disused government road, or are there any crown licences associated with the land?

### Is there any earth resource activity such as mining in the area?

You may wish to find out more about exploration, mining and quarrying activity on or near the property and consider the issue of petroleum, geothermal and greenhouse gas sequestration permits, leases and licences, extractive industry authorisations and mineral licences.

## Soil and groundwater contamination

### Has previous land use affected the soil or groundwater?

You should consider whether past activities, including the use of adjacent land, may have caused contamination at the site and whether this may prevent you from doing certain things to or on the land in the future.

(04/10/2016)

## **Land boundaries**

### **Do you know the exact boundary of the property?**

You should compare the measurements shown on the title document with actual fences and buildings on the property, to make sure the boundaries match. If you have concerns about this, you can speak to your lawyer or conveyancer, or commission a site survey to establish property boundaries.

## **Planning controls**

### **Can you change how the property is used, or the buildings on it?**

All land is subject to a planning scheme, run by the local council. How the property is zoned and any overlays that may apply, will determine how the land can be used. This may restrict such things as whether you can build on vacant land or how you can alter or develop the land and its buildings over time.

The local council can give you advice about the planning scheme, as well as details of any other restrictions that may apply, such as design guidelines or bushfire safety design. There may also be restrictions – known as encumbrances – on the property's title, which prevent you from developing the property. You can find out about encumbrances by looking at the section 32 statement.

### **Are there any proposed or granted planning permits?**

The local council can advise you if there are any proposed or issued planning permits for any properties close by. Significant developments in your area may change the local 'character' (predominant style of the area) and may increase noise or traffic near the property.

## **Safety**

### **Is the building safe to live in?**

Building laws are in place to ensure building safety. Professional building inspections can help you assess the property for electrical safety, possible illegal building work, adequate pool or spa fencing and the presence of asbestos, termites, or other potential hazards.

## **Building permits**

### **Have any buildings or retaining walls on the property been altered, or do you plan to alter them?**

There are laws and regulations about how buildings and retaining walls are constructed, which you may wish to investigate to ensure any completed or proposed building work is approved. The local council may be able to give you information about any building permits issued for recent building works done to the property, and what you must do to plan new work. You can also commission a private building surveyor's assessment.

### **Are any recent building or renovation works covered by insurance?**

Ask the vendor if there is any owner-builder insurance or builder's warranty to cover defects in the work done to the property.

## **Utilities and essential services**

### **Does the property have working connections for water, sewerage, electricity, gas, telephone and internet?**

Unconnected services may not be available, or may incur a fee to connect. You may also need to choose from a range of suppliers for these services. This may be particularly important in rural areas where some services are not available.

## **Buyers' rights**

### **Do you know your rights when buying a property?**

The contract of sale and section 32 statement contain important information about the property, so you should request to see these and read them thoroughly. Many people engage a lawyer or conveyancer to help them understand the contracts and ensure the sale goes through correctly. If you intend to hire a professional, you should consider speaking to them before you commit to the sale. There are also important rules about the way private sales and auctions are conducted. These may include a cooling-off period and specific rights associated with 'off the plan' sales. The important thing to remember is that, as the buyer, you have rights.

**6 TERMINATION/DISCONNECTION**

- 6.1 Yarra Valley Water may terminate this agreement or disconnect the temporary trunk service or both on not less than one month's notice in writing to the property owner for any reason whatsoever including, without limitation:

- 7.1 A property owner proposing to dispose of all or part of a property which is serviced by a temporary trunk service must inform any persons who may acquire the property of the existence of the temporary trunk service and the terms and conditions of this agreement.
- 7.2 If the disposal referred to in clause 7.1 is by way of sale, the vendor's statement under section 32 of the Sale of Land Act 1962 must expressly inform potential purchasers of the property that:
- (a) the temporary trunk service is a temporary means of water supply to the property and may be terminated by Yarra Valley Water on not less than one month's notice in writing; and

- 7.4 Subject to clauses 7.5 and 7.6, this agreement continues to be binding on a property owner in respect of a property connected to the temporary trunk service until a notice of disposal under clause 7.3 is given or a subsequent owner of the property executes a deed in the form of schedule 2, whichever occurs first.
- 7.5 Subject to clause 7.6, when Yarra Valley Water becomes aware of the disposal of all or part of a property which is serviced by a temporary trunk service, it may disconnect that property from the temporary trunk service until a subsequent owner executes a deed under schedule 2. Unless terminated earlier, this agreement terminates from the date of disconnection against the property owner who previously owned that property.
- 7.6 If a disposal of property relates only to that part of a property which does not receive services from the temporary trunk service, this agreement remains in force in relation to the remaining part of the property that is not disposed of.

**8 MULTIPLE CONNECTIONS**

- 8.1 Yarra Valley Water may permit a person who is the owner of a property that is not connected to the temporary trunk service to extend the temporary trunk service and/or connect to the temporary trunk service, subject to that person:

- (a) obtaining a letter of approval from Yarra Valley Water and complying with the terms and conditions of that letter to the satisfaction of Yarra Valley Water;
  - (b) executing a deed in the form of schedule 3; and
  - (c) satisfying Yarra Valley Water that the person has complied with the reasonable terms and conditions of property owners who are parties to this agreement.

- 8.3 The terms and conditions referred to in clause 8.1(c) must be reasonable taking into account the investment of each property owner in relation to the temporary trunk service and the use that that property owner has had from the temporary trunk service.
- 8.4 If the property owners who are parties to this agreement are unable to reach agreement in relation to the terms and conditions referred to in clause 8.1(c) within a period of [two] months of being asked to do so by the person wishing to connect to the temporary trunk service, Yarra Valley Water may determine the terms and conditions that must be complied with for the purposes of clause 8.1(c). In making a determination under this clause, Yarra Valley Water must consult with the property owner wishing to be connected to the temporary trunk service and each property owner who is a party to this agreement and must take into account the matters in clause 8.3. The property owners who are parties to this agreement must pay Yarra Valley Water's reasonable administrative costs in connection with making a determination under this clause. These costs are to be divided equally between them.

## 9 EFFECT OF EXECUTING DEED OF ASSUMPTION

- 9.1 If a person executes a deed in accordance with clauses 7 or 8:

- (b) complying with a direction by Yarra Valley Water under section 68 of the Water Industry Act 1994; and
- (c) the additional water usage under clause 2.4(b),

must be borne by property owners in accordance with their responsibilities under this agreement.

10.3 Unless otherwise agreed between the property owners who are parties to this agreement, if it may reasonably be demonstrated that the costs referred to in clause 10.2 have been incurred because of the act or omission of one of those property owners, that property owner must pay or reimburse the other property owners for those costs. If the act or omission of more than one property owner is involved, those property owners must share equally the cost of paying or reimbursing the other property owners.

10.4 If any property owner makes a payment in connection with the maintenance, repair or replacement of the temporary trunk service, that property owner may recover the amount of that payment for which another property owner is responsible under clause 10.2.

- (b) the supply or failure to supply water or water of a certain quality, quantity or pressure from the temporary trunk service; or
  - (c) any failure to comply with the terms of this agreement.
- 12.2 Each indemnity in this agreement is a continuing obligation, separate and independent from the other obligations of the parties and survives termination of this agreement.
- 12.3 It is not necessary for Yarra Valley Water to incur expense or make payment before enforcing a right of indemnity conferred by this agreement.
- 13 PERMANENT WATER RETICULATION MAIN**
- 13.1 Yarra Valley Water may, at its discretion, at any time construct a permanent water reticulation main to service a property to which this agreement applies. Yarra Valley Water may require the property owner to meet or contribute to the cost of constructing a permanent water reticulation main to service the property in accordance with the provisions of the Water Industry Act 1994.
- 13.2 Where a permanent water reticulation main is constructed by Yarra Valley Water to service a property, Yarra Valley Water may, at its cost:
- (a) disconnect the temporary trunk service from that property; and
